Subject: RE: PFESA-BP2 Manuscript Comments

Johnsie,

I would agree that the author affiliation is the location where the work was completed, but please make sure you then include a footnote for your current address as that is where any correspondence would be sent. That was the intent of my comment.

If you do not want correspondence being sent to your current address, then I would suggest you make Andy Lindstrom or another author the contact author.

Ron

Subject: PFESA-BP2 Manuscript Comments

Hi Ron,

I believe I have addressed all of your comments on the PFESA-BP2 manuscript, as well as comments from Chris Lau and John Rogers. I am getting ready to send the new version to Drew to be resubmitted to STICS.

I wanted to let you know I did not the author affiliation. The author affiliation is the location of the person when they completed the work. I worked for ORISE when I did this work so I will leave the contact information for myself to reflect this requirement. I am currently an unemployed female scientist.

Thanks,
Johnsie
